FACT SHEET

COMPANY PROFILE

- Leading provider of UV technology for industrial applications
- We are an industry partner and develop customized solutions
- 500+ employees — internationally present at more than 20 locations
- 100,000+ units installed worldwide
- 3 Business Units:
  - UV- and light-curing adhesive systems and high-tech industrial adhesives
  - Drying systems for the printing industry and industrial coating applications
  - Disinfection of water, air and surfaces using ultraviolet radiation

WHY UV?

Acceleration of production processes [1)]

Scratch-resistant surfaces

Process reliability

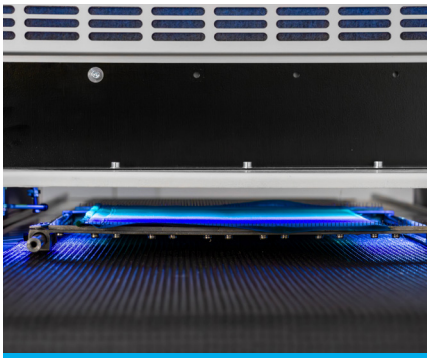

Reduction of energy consumption[2)]

Solvent-free coating

Environmentally friendly UV disinfection[3)]

1) UV drying enables the rapid curing and further processing of adhesives and coatings.
2) The use of modern UV LEDs can reduce energy consumption compared with conventional UV discharge lamps.
3) UV disinfection enables the use of chemical products to be reduced or eliminated altogether.

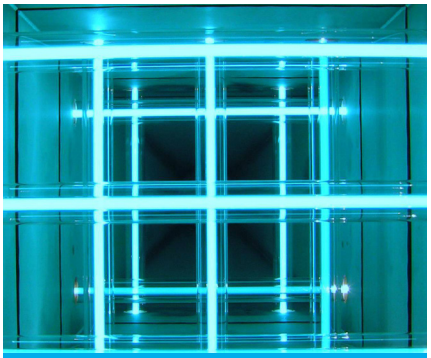

BUSINESS UNIT REVENUE SHARE

Curing 30%

Adhesive Systems 39%

Disinfection 31%

MANAGEMENT

EXECUTIVE BOARD

Dr. Franz Richter, CEO
Dr. Ing. Physics
More than 40 years of professional experience, including management and supervisory board positions at various technology companies

Robert Stark, CFO
MSc Finance, Industrial Engineer
More than 15 years of experience in auditing and finance

SUPERVISORY BOARD

- **Niklas Friedrichsen, Chairman**
  Tax Consultant, Business Administration Graduate
- **Dr. Bernhard Gimple, Deputy Chairman**
  Attorney, Dr. jur.
- **Heiko Geissler**
  Master of Science (MSc) in International Business Administration
- **Prof. Dr. Imke Libon**
  Professor, Dr. rer. nat.
- **Melanie Ott**
  Graduate Chemical Engineer
